

Down to the Wire

In just six days, H.F.1930, the bill to legalize physician-assisted suicide (PAS) in Minnesota has passed through two more committees- House Public Safety and House Judiciary and Civil Law.

Between today and March 22, let's get as many message and phone calls into legislators as possible to ensure assisted suicide does not become law in Minnesota.

In Maryland, legislators have been considering legalizing PAS, but **after advocates like us delivered more than 3,000 messages** of opposition in a matter of days, legislators announced that they would no longer be considering PAS this year and **credited their decision to the amount of constituents they heard from on the issue.**

[Send Your Message](#)

[Call Legislators](#)

- 1)** Click "CALL LEGISLATORS" button above
- 2)** Type in your zip code to find your legislator
- 3)** Click "Contact" to get the office phone number
- 4)** Call and urge your legislator to oppose PAS

Share [this action alert](#) with your family, friends, and professional networks. Ask them to join you in opposing PAS by sending a message to their legislators!
